**INTERIM ORDER**

It is hereby ordered, by the consent of the parties, that Cranston will provide this student with air conditioned cab transportation from school. A non-air conditioned bus may be used on days when it is apparent that it is cool enough for such transportation to be safely used. The parent's judgement will control in the event of a disagreement on the safety of the temperature.

The parties will agree on a sum to be reimbursed to the parent for the days transportation was provided by the parent. Mr. Robert Pryhoda, of the Office of Special Needs, will provide information about reimbursement rates. The school district will provide an appropriate safety transportation harness for the student.

This order is to last through the month of October, 1999. The parties are to write into this student's IEP appropriate transportation measures.
